

HIGH PERFORMANCE VERTICAL TURNING CENTER

PUMA VT

1100

DN SOLUTIONS

PUMA VT 1100

The vertical turning center is designed for long term accuracy, heavy duty cutting and to minimize floor space.

Its powerful spindle drives, meehanite casting and integral box guide way provide unsurpassed rigidity.

FURTHER ENHANCED TURNING CAPACITY

The turning capacity achieved 32" of max. chuck size and 1100 mm of max. turning diameter.

HIGH RELIABILITY

In order to assure heavy duty machining and optimized chip flow, the machine base body is designed and streamlined.

USER FRIENDLY DESIGN

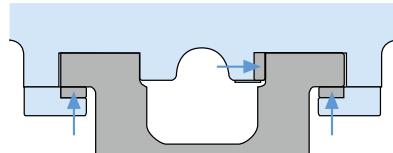

The bed structure has been redesigned to facilitate the efficient disposal of high volumes of chips. In addition, the height of the operation panel can be adjusted for optimum convenience. Fixed type pendants are also available to suit customers' requirements.

BASIC STRUCTURE

Robust bed construction

In order to assure heavy duty machining and optimized chip flow, the machine base body is designed and streamlined. Its small foot print help you systemizing your manufacturing plan plot in your factory.

3Gibs Support on each for longterm and easy to maintain accuracy

Robustcolumn construction

The wide hardened and ground box ways reduce vibration promoting better tool life and surface finishes. The box ways are turcite coated which allows for 787 ipm rapid traverse rates. The Balanced Counter Weight located inside the column, neutralizes the gravity effect on the Vertical slide. It will also conserve electricity and prevent Turret Drop while in Emergency stop or Power failure. All axis Slides are Induction Hardened and Ground Hrc 55 Hardness. Long-term Accuracies are very basic requirements on our products.

MACHINING AREA

Wider machining area for larger / more diverse workpieces.

Max. turning diameter

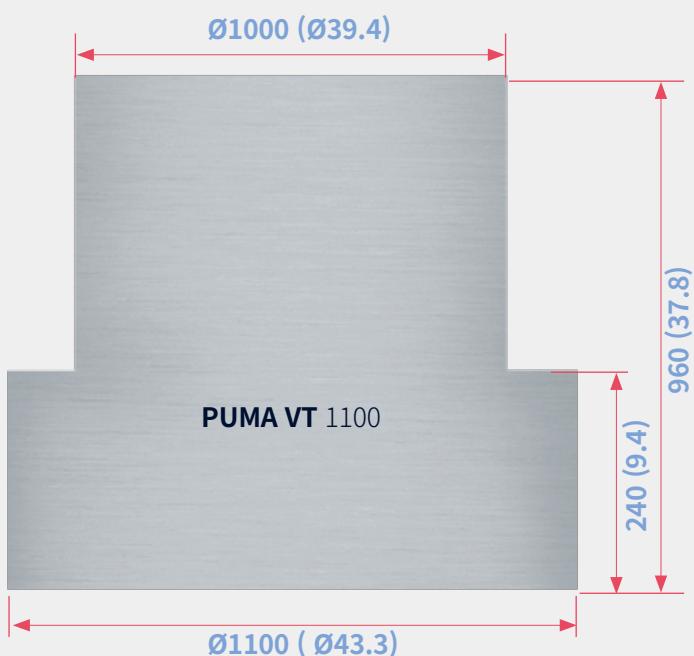

Ø 1100 mm
Ø 43.3 inch

Max. turning height

960 mm
Ø 43.3 inch

Chuck size

32 inch

SPINDLE

Higher reliability and rigidity with improved base and spindle motor assembly.

High performance spindle

The highly rigid gearbox structure provides the highest power / torque in its class for heavy duty cutting and optimum performance. A variety of spindle specifications are available to suit customers' diverse requirements.

Max. spindle speed

1800 r/min

Max. power (S6 25%/S1 Cont.)

65/45 kW

87.2/60.3 Hp

Max. torque

7552 N·m

5573.4 ft-lbs

Description		Unit	VT 1100
Spindle	Speed	r/min	850
	Power	kW (Hp)	65 / 55 / 45 (80.5 / 73.8 / 60.3) (S6 25% / S6 40% / S1 Cont.)
	Max. torque	N·m (ft-lbs)	7552 (5573.4)
C-axis minimum rotation command angle (M type)		deg	0.001

TURRET

The new servo turret facilitates faster indexing and accurate positioning.

Fast and accurate turret

The new servo motor turret increases indexing speed and accuracy. The M model uses BMT85P turret to provide excellent milling performance and reduced thermal error due to low heat generation design.

Rotary tool max. power (S3 60%)

Cont.)

STANDARD | OPTIONAL SPECIFICATIONS

Diverse optional features are available for customer-specific work applications.

Description	Features	PUMA VT1100
Chuck (LEFT / RIGHT)	610 mm (24 inch)	X
	800 mm (32 inch)	●
	1000 mm (40 inch)	○
	None	○
Jaw (LEFT / RIGHT)	Soft jaw	●
	Hard jaw (Hardened & Ground Hard Jaws)	○
Chucking option	Dual pressure chucking	○
	Chuck clamp confirmation	○
	Hydraulic chuck & actuating cylinder ^{*1}	○
Coolant pump	4.5 bar	●
	7/10/14.5/70 bar	○
Coolant option	High coolant interface	○
	Oil Skimmer(Belt type)	○
	Coolant chiller(circulation type) ^{*2}	○
	Coolant pressure switch	○
Chip conveyor	Side chip conveyor(Left)_Hinged type	○
	Side chip conveyor(Left)_Magnetic scraper	○
	Rear chip conveyor_Hinged type	○
	Rear chip conveyor_Magnetic scraper	○
Chip processing options	Chip bucket	○
	Coolant flushing	○
	Air gun	○
	Coolant gun	○
Automatic configuration	Auto door with safety edge	○
	Automatic side door	○
	Work & Tool counter	○
	ATC(Automatic tool changer)	○
Robot Interface	PMC I/O MODULE TYPE	○
	PROFIBUS-DP TYPE	○
Customized Special Option	Coolant level switch_sensing level_Low	○
	Quick change tooling (CAPTO)	○
	Mist Collector_2.2 KW	○
	Accumulator For Hydraulic Power Unit	○
	Air Blower Through Turret_With Coolant	○
	Raised Column_200 mm	○
	Auto work measurement	○
	Spindle gear box cooling system	○
	Rotary type window wiper(Electrical)	○

Please contact your DN Solutions representative for detailed machine information.

*1: In case of chuck specification change, it may be necessary to replace the chuck cylinder.

*2: Coolant chiller is highly recommended to prevent temperature rise and minimize thermal deformation, when using a water-insoluble coolant or high-pressure coolant system of which the power is over 1.5 kw.

● Standard ○ Optional X N/A

There is a high risk of fire when using non-water-soluble cutting fluids, processing flammable materials, neglecting the controlled and careful use of coolants and modifying the machine without the consent of the manufacturer. Always check the SAFETY GUIDELINES carefully before using the machine.

AUTOMATIC TOOL CHANGER OPTION

Capto tool of ATC provide the higher productivity at difficult to cut material.

Max. spindle speed

850 r/min

Max. motor (30 min)

60 kW 80.5 Hp

Description	Unit	Specifications
Tool shank	-	CAPTO C8
Tool storage capacity	ea	12
Max. tool diameter	mm (inch)	110 (4.3)
Max. tool length	mm (inch)	450 (17.7)
Max. tool mass	kg (lb)	15 (33.1)
Tool Search Time (1 PORT)	sec	0.8
No. of CAPTO Tool Holder on turret	ea	1~12

Quick change tooling (CAPTO)

DN SOLUTIONS FANUC i PLUS

DN Solutions Fanuc i Plus maximizes customer productivity and convenience.

15" Screen + New OP

DN Solutions Fanuc i Plus' operation panel enhances operating convenience by incorporating common-design buttons and layout. It features a Qwerty keyboard for fast and easy data input and operation.

DN Solutions Fanuc i Plus

- 15-inch color display
- Intuitive and user-friendly design

USB and PCMCIA card QWERTY keyboard

- EZ-Guide i standard
- Ergonomic operator panel
- 2MB Memory
- Hot keys

iHMI touchscreen OPTION

iHMI provides an intuitive interface that uses a touchscreen for quick and easy operation.

Range of applications

Providing various applications related to planning, machining, improvement and utility, for customer convenience.

CONVENIENT OPERATION

SIEMENS S828D

15.inch display + New OP

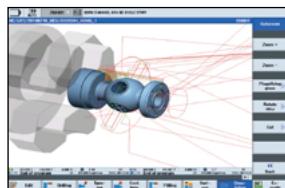

Siemens 828D' operation panel enhances operating convenience by incorporating common-design buttons and layout. It features a Qwerty keyboard for fast and easy data input and operation.

- 15.6 inch display

- USB (standard)
- QWERTY keyboard

Convenient conversational functionality

Cutting and operation support function

This function shows a cutting and tool path simulation in real-time.

Shop-turn mode
[various]
↓
[attachments]

The automation elements (parts catcher, parts unloader etc.), can be easily controlled via interactive screens.

[Custom]
↓
[Protection zones]

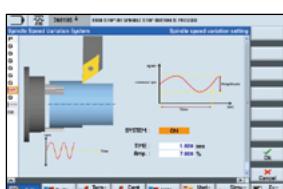

Operation safety function

Protection Zone Synchronized Actions checks the interference between the turret and the spindle to prevent collisions caused by operator error.

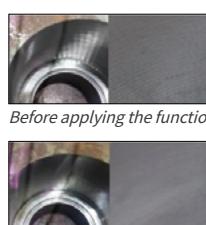

[offset]
↓
[operating parameter]
↓
[TC service]

Maintenance and service convenience function
Maintenance and service of major equipment and peripheral devices, including the timer and parts counter settings can be easily undertaken.

Machining accuracy improvement

The NC controls spindle speed at an optimal level for precision threading and turning, making it possible to automatically improve surface roughness.

RESPONDING TO CUSTOMERS **ANYTIME, ANYWHERE**

DN Solutions Global Network

DN Solutions provides systems-based professional support services, before and after the machine tool sale, by responding quickly and efficiently to customers. By supplying spare parts, product training, field service and technical support, we provide the expert care, attention and assistance our customers expect from a market leader.

Global sales and service support network	51	Technical centers Technical center, Sales support, Service support, Parts support

CUSTOMER SUPPORT AND SERVICES

We're there for you whenever you need us.

We help our customers operate at maximum efficiency by providing them with a range of tried, tested and trusted services - from pre-sales consultancy to post-sales support.

Field services

- On-site service
- Machine installation and testing
- Scheduled preventive maintenance
- Machine repair service

Parts supply

- Supplying a wide range of original DN Solutions spare parts
- Parts repair service

Training

- Programming, machine setup and operation
- Electrical and mechanical maintenance
- Applications engineering

Technical support

- Supports machining methods and technology
- Responds to technical queries
- Provides technical consultancy
